Abdullah_Mohamed Abdullah_Mohamed Portofolio

PROFILE

Experienced Frontend Engineer with 3 years in Vue.js and Nuxt.js development , specializing in building dynamic, user-friendly web applications. My expertise lies in creating responsive designs and implementing best practices to deliver seamless user experience.

EDUCATION

Bachelor of Computer Science 2017 – 2021
Mansoura University Mansoura, Egypt

PROFESSIONAL EXPERIENCE

Junior Frontend Engineer 09/2024 – present
code base
- Develop visually appealing web apps, meeting specifications within deadlines.
- Worked on large-scale projects like circles_academy and contracting contributing to frontend development using Vue.js & Nuxt 3.
- Collaborated with a team of developers to build scalable and high-performance applications.
- Assisted in writing clean, maintainable, and well-structured code, following best practices.

Frontend Intern 08/2021 – 02/2022
Code base
- gaining hands-on experience in frontend development. Focused on real-world project implementation, mentoring, and refining development best practices.
- Enhanced expertise in Vue.js and modern web technologies while collaborating with teams to build scalable applications.

PROJECTS

Salah Seleem Team
live
Developed a responsive health and fitness platform for SalahSeleemTeam using Blade , Nuxt 3, Tailwind CSS, and REST APIs, featuring personalized fitness programs, nutrition plans, success stories, and seamless program enrollment to enhance user engagement and conversions.
Convert to PDF

FITEXPERT
live
Developed a responsive FitExpert fitness platform using blade, Tailwind CSS, and REST APIs, featuring dynamic content, optimized routing, SSR/SSG, and a mobile-first UI for fast performance and seamless user navigation.

Circles Academy
Live website
A specialized online learning platform built using Nuxt 3. It offers internationally accredited courses in clinical nutrition, sports nutrition, and personal training. The website features course enrollment, progress tracking, interactive learning tools, and certification, providing a seamless and engaging user experience.

Salah Abo El Magd
live
Designed and developed a responsive, content-rich website for Dr. Salah Abo Elmagd to showcase his publications, media presence, and educational work. The platform includes dynamic content management, multilingual support, and optimized performance for a seamless user experience.

RaQy
Live website
Built a modern real estate listing platform with advanced filtering, property search, and responsive UI. The site supports dynamic property management, user-friendly interfaces, and optimized performance for both mobile and desktop. Designed with scalability and clean UX in mind.

Mobadra Fitxpert
live landing
Developed a responsive, conversion-focused landing page for a fitness management platform, showcasing its features, subscription plans, and benefits for fitness coaches and nutrition specialists. Focused on modern UI/UX, responsive design, and engaging user experiences to drive user engagement and free-trial sign-ups.

SST Affiliate Dashboard
live
Developed a responsive affiliate dashboard using React with AI-assisted (vibe) coding, enabling affiliates to track referrals, monitor commissions and wallet balances, review transactions, and manage payout history through an intuitive user interface.

FITEXPERT Landing Page
live landing
Developed a responsive, conversion-focused landing page for a fitness management platform, showcasing its features, subscription plans, and benefits for fitness coaches and nutrition specialists. Focused on modern UI/UX, responsive design, and engaging user experiences to drive user engagement and free-trial sign-ups.
